REVISED

21 May 2021

Announcement Regarding SRIS' New Campus

Dear Parents/guardian,

We wish to announce that Sear Rogers International School will be officially moving to its new campus in Tsuen Wan, starting from the beginning of the Fall Semester of 2021.

The new location has been undergoing major renovation work by Barrie Ho Architecture, a renowned Hong Kong-based architecture firm that has won many prestigious international awards. The new modern campus comprises spacious classrooms and ancillary rooms, school office, hall, music and study room, computer room, STEM and science laboratory, multimedia room and studio, and seating area, etc. The school will also have high-speed fibre-optic internet connectivity with secure state of the art network data management system.

SRIS will remain committed to delivering the internationally-recognized British National Curriculum, the IGCSE and A-levels qualifications. Thanks to our very dedicated and hardworking staff, we will continue to provide a wide range of quality experiences for all our students, whilst promoting interconnection, independence and high achievement.

We believe that with this new well-resourced campus and our unrelenting ambition to drive the school forward, a bright and promising future lies ahead for our students and all of us. As each and every one of you has already played an important and valuable role for the school, we hope that we will continue working together as a school community after our relocation.

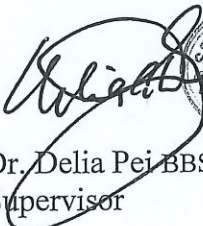

The new SRIS campus address:

Portion A, Podium E, 4/F, Riviera Gardens, Tsuen Wan.

Due to the ongoing renovation work, it is not possible to invite all parents to visit the school at the moment; but we are planning to invite all parents to visit our new campus on 3rd July 2021

Please do not hesitate to contact us if you have any questions.

With warm regards,

Dr. Delia Pei BBS., JP
Supervisor
